Creating Warmth... Inspiring Comfort

There is a decided difference between a house and a home. It's about creating a warm welcome that goes well beyond heating – an ambiance that reflects your personal style and beckons with its genial embrace.

This concept is at the heart of every Hearthstone® Stove. Designed with the beauty of a fine piece of furniture, a Hearthstone Stove combines reliability with time-tested craftsmanship to become an essential part of your unique home experience.

In the spirit of true traditional craftsmanship, Hearthstone's contemporary Euro Stoves are made by people who take great pride in their work. Fine European design, superior materials, and state-of-the-art development and production processes are intrinsic components of every Hearthstone contemporary stove. All stoves in the Euro Collection are smart products designed for the North American market: our wood stoves are EPA certified for clean-burn as well as the highest efficiency, while capable of burning overnight with logs up to 17". Our gas stoves and their components are all ANSI/CSA certified to the strictest North American standards to assure your comfort, safety and long product life.

Integrity at every turn. That's what gives Hearthstone Stoves their unmatched appeal, and has for over 30 years. We invite you to get acquainted with our collection of contemporary stoves starting on these pages.

There's a Hearthstone That's Perfect for You...

Carbon-neutral woodburning or ultra-efficient gas-fired. Classically-styled or contemporary. For heating your entire home or just warming a single room. With so many choices – and so many finishes – the joy of Hearthstone is that there's bound to be one that's perfect for you. More than a name, the Hearthstone brand is an assurance – a guarantee that your appliance is built in the rich tradition of our company, and will serve you faithfully for years to come. Welcome to the world of Hearthstone. We're confident you'll feel right at home.

The Modena's firebox comes standard with ceramic fire stones (shown left). An optional realistic log set is available (shown right).

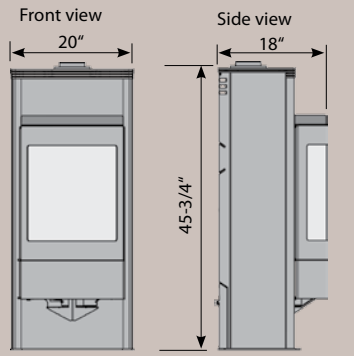
The Modena's fire glows from three sides, so the view of the flames is perfect from any angle. This stove is designed to reflect the fire with a mirrored effect.

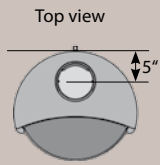
Size: 26,500 BTUs | Heats up to: 1,300 sq. ft. | Steady State 74-80% | Model: #8160

hase LUNO GAS STOVE

The ultrasleek, thermostatic remote control included with every Euro Collection gas stove allows you to light a fire and control the room temperature with the touch of a button.

The Luno gas stove is specifically designed to harmonize with a modern sensibility. Made with two semicircular elements, the stove remains slim despite its large firebox.

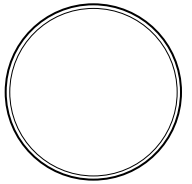




Finish:

Gray / Soapstone

Recommended glass hearth pad:



35-1/2″ Diameter

Part # 91-84800
