COLLECTION

Montecito™ shown with brushed nickel façade and door.

■ The Montecito Estate™ and Montecito™ wood-burning fireplaces exude classic beauty that transforms any room into an inviting gathering space. The presentation captures the treasured style of a large traditional masonry fireplace with its finely crafted refractory and arch-design façade and door. Adding to the atmosphere of the room, both models efficiently deliver heat through a heat-activated blower, natural convection and non-catalytic combustion with a virtually maintenance-free design. The beautiful selection of façades and doors allows you to achieve a customized look that reflects your style. With all these remarkable features, the Montecito Estate and Montecito offer gorgeous wood-burning fireplaces that excel in aesthetic style and heating performance. ■

Montecito Estate™ Wood-Burning Fireplace

Montecito Estate™ shown with brushed nickel façade and doors

STANDARD FEATURES

4.0-cu.-ft. firebox with 30" log capacity is one of the largest available in its category

86.7% efficiency and up to 80,000-BTU/hr heat output delivers clean and powerful heating*

EPA-certified 7.4 gr/hr emissions

Burn time up to 8 hours and heating capacity up to 2,500 sq. ft.*

Heat-activated variable speed blower and time-delayed heat distribution provide even comfort

Time-delayed Air Boost system for fast and easy ignition

Non-catalytic combustion provides virtually maintenance-free operation

Air wash keeps the window clean for a beautiful view of the fire

Outside air kit features 4" I.D. x 10' long insulated flex and register

MULTI-ROOM HEATING OPTIONS

The Montecito™ line of wood-burning fireplaces can be used to heat multiple rooms within your home with our gravity vent kit option. Through natural convection or with the aid of the heat-circulating fan, warm air can be directed up to 10 feet away into one or two adjacent rooms, giving you the flexibility to heat up to three areas. Heat the family room with the fireplace, and the dining room and upstairs bedroom with the gravity vent kit. Or you can choose to more efficiently heat a large space by directing heat through multiple vents.

Distribute heat through multiple

ENGINEERED TO BE THE BEST

*Exclusive time-delayed Air Boost system provides additional air input at ignition before dropping back to the desired burn rate you have set. Montecito Estate only.

**Air-cooled chimney not recommended for use at elevations above 4,000 feet or in climates where temperatures will fall below 32° Fahrenheit (0° Celsius).

IMPORTANT NOTES:

As with any heating appliance, fireplace or stove, this appliance is extremely hot during operation. Read and understand all operating instructions before using this appliance. For further information, consult your dealer.

Actual performance may vary depending upon home design and insulation, ceiling heights, climate, condition and type of wood used, appliance location, burn rate, accessories chosen, chimney installation and how the appliance is operated.

Diagrams, illustrations and photographs are not to scale—consult installation instructions. Product designs, materials, dimensions, specifications, colors and prices are subject to change or discontinuance without notice.
