why choose Regency?

Beautiful Home Heating Solutions

Regency Fireplace Products was founded over 30 years ago with a mission to produce the finest fireplace products available anywhere. Regency has heating solutions for every room in your home. Listening to our customers has enabled us to become the premium brand in the market today.

Regency Quality

The Regency name means quality in every way. The product is created and built in a world class manufacturing facility focused on getting every detail just right. Represented across North America by a carefully selected professional retail network, you can rely on knowledgeable dealers and installers who understand how to make our products run safely and to the optimum performance.

Exceptional Fire

The essence of each and every Regency fireplace is the unique flame. Without question, it's the best in the industry. With its dancing flames and glowing embers, the Regency fire looks just like a wood fire.

Custom Styling

By researching current trends and styles we have created tasteful options and accessories that allow you to tailor the look of our fireplace to your home. Sleek and simple or grand and glamorous... your choice.

One Regency = One Tree

At Regency, we are committed to protecting our environment. For every Regency sold, we will plant a tree. Working with *American Forests*, the trees planted across North America will offset carbon emissions and take one more step to restore nature's balance.

Lifetime Warranty

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every product, that I offer a Limited Lifetime Warranty. The Regency warranty is the best in the industry. I am absolutely sure that you will be as proud of your Regency Gas Fireplace as I am – I guarantee it.

Liberty® Large Gas Fireplace L965E

L965E gas fireplace shown with castlestone brick panels.

Elegant Style, Controllable Heat

Creating an elegant focal point is easy with the Regency Liberty® L965E. This clean face fireplace keeps the focus on the fire with one of the largest viewing areas available in the Regency line. The L965E permits finish materials to be installed to the edges for a pure, unadorned appearance. An adjustable burner system allows the flame to be controlled for mood and comfort from a roaring fire to a gentle glow all from the convenience of a hand-held remote control.

Standard Features

- Natural Gas
- High Definition 8 piece ceramic log set
- Hand painted, high definition ceramic glowing ember bed
- Split Flow burner to allow for variable heat control
- Electronic ignition with SureFire™ switch
- Proflame GTMFS remote control
- Clean Face Front with ceramic glass
- Direct vent
- 45° flue for versatile installations
- Accent light

Optional Features

- Old town red, ledgerstone, castlestone & black enamel inner panels (must choose one)
- Black full screen door
- Removable mesh glass guard
- Propane Conversion kit
- Vertical or horizontal vent terminations
- Heat distribution kit
- Power vent Kit
- AstroCap® venting system

Bellavista® Medium Gas Fireplaces

B36XTCE & B36XTE

Bellavista B36XTE shown with midnight gray arch full screen doors and brick panels.

Bold flames

Bellavista means beautiful view in Italian, describing perfectly the fire view from either one of the most popular sized fireplaces in the Regency line up. The B36XT features a bold flame and log package behind a 641 square inch viewing area providing up to 31,000 BTU of comforting heat. The quality workmanship is evident in the fine finishes, custom accessories and high safety ceramic glass. A lower BTU option is available, with the B36X providing 18,500 BTU of heat.

Panorama® Small Gas Fireplaces

P33CE/P33E/P33

P33CE Gas Fireplace shown with brick panels.

Compact design

True flush finishing and a louverless front face provide an unobstructed view of the fire in Regency's new Panorama™ P33CE gas fireplace. As a focal point in small to medium-sized spaces, the P33CE embodies the complete fireplace experience with a ceramic log set and glowing platinum and Embaglow™ fiber embers. Measuring just 12-3/4 inches in depth, the slim design of the P33 offers tall style in a compact size with all the features of the Panorama collection and just the right amount of heat output.

Regency Remote and Thermostat Comfort Control

FireGenie Remote Control

Create optimal comfort with ease and convenience at the touch of a button with a Regency Comfort Control System. Our user friendly programmable controls can be set, adjusted and programmed for your fireplace to come on at the temperature you want when you want it. Regency control systems are available with a variety of features to suit your household home heating needs.

* Smart Thermostat - Rather than a thermostat that simply turns your fireplace on and off, the Smart Control function allows you to set your desired room temperature and as the room reaches your personal setting the flame intensity and heat will gradually decrease – keeping the ambience of your Regency fire on with less heat output with the option to turn off at any time.

** For models that have a blower.

*** For models that have an optional accent light.

Thermostat

Maximizing Comfort and Efficiency

Regency Fireplaces delivers controllable heat solutions combining the latest in radiant/convection heat technology and innovative features.

- ☑ Adjustable flame/heat control
- ☑ Heat radiating ceramic glass for maximum radiant heat performance
- ☑ **SureFire Electronic Ignition** switch with battery backup features a fuel saving intermittent pilot ignition conserving energy when not in use.
- ☑ **Power's Out, Heat's On.** Never worry about being cold in a power outage again! All Regency gas fireplaces operate without electricity. Enjoy peace of mind all winter long.

Direct Vent Technology

You can enjoy the convenience of a gas fireplace anywhere in your home with a Regency Direct Vent Fireplace. Regency Direct Vent Fireplaces maintain indoor air quality by drawing fresh combustion air in from outside through our specialized venting system into a sealed firebox and sending the used air back outdoors.

Design Versatility

Direct Vent technology allows you to add a fireplace to rooms even if there is no existing chimney. Simply vent your fireplace through an outside wall and finish it with the Regency Patented **AstroCap™ Flex Venting System**.

Spread the warmth

Zone Heating with Regency

Turn down your furnace and enjoy high efficiency warmth in the rooms you spend the most time in. By adding a fireplace to your most frequently used living space you're not wasting energy by heating rooms you don't use.

Heat Adjacent Rooms with the Heat Wave™ Power Duct System

You can increase the effectiveness of your fireplace, while cutting down on your heating costs, using a Heat Wave kit. The Heat Wave system attaches onto most Regency gas fireplaces allowing you to direct heat into rooms up to 20 feet away. This kit comes complete with vent, variable speed blower (for HeatWave system only) and vent register.

Variable Speed Blower to Maximize Efficiency

Adding a Regency blower will let you enjoy the warmth of your fireplace from any corner of your living space. Our quiet blowers increase the efficiency of your fireplace by pushing the heat produced by your fireplace forward and distributing it further and evenly into the room.

AstroCap (painted to match home)

Fireplace planning made simple

Your Regency® matches your home and lifestyle perfectly. How do we know that? Because you designed it yourself!

www.regency-fire.com

1

CLICK!

Take a photo of your desired room location.

2

DESIGN

Go to www.regency-fire.com and design your perfect fireplace with the Fireplace Design Center.

3

VISUALIZE

Upload your room photo and see how the fireplace will look in your own house. Print your own brochure.

4

VISIT A REGENCY STORE

Show your plan to one of our sales associates for expert advice. Your authorized Regency dealer will advise you on all the technical aspects and install your Regency.

5

NO CHIMNEY? NO PROBLEM!

Direct vent technology means you no longer need an expensive, elaborate chimney. Simply vent your fireplace through an outside wall and finish it with an AstroCap™.

6

ENJOY!

your regency dealer
