

contemporary
gas fireplaces

why choose Regency?

Fire Transformed to Art

My vision was to elevate the role of a fireplace beyond the heating function to a highly stylized art form for today's trend toward modern homes. I focused on clean lines crafted from unique materials in bold, vibrant colors, cool stainless and sleek black. These elegant frames wrap artfully around a fire that dances evocatively from a firebed blanketed in vibrant crystals or a seamless river of pebbles. Prepare to impress.

Regency Quality ... Beauty that Heats

For over 30 years Regency has carefully researched trends to develop fireplaces that fit your needs. A perfect combination of function and beauty; each Regency is a high efficiency heater with a beautiful view. Cut your heating bills by turning your furnace way down in most of your rooms and enjoy high efficiency, controllable heat in the living areas you spend time in. And, all Regency products operate during power outages.

Lifetime Warranty

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every Regency, that I offer a Limited Lifetime Warranty. We know that you will be as proud of your Regency Contemporary Collection Fireplace as we are – I guarantee it.

A handwritten signature in black ink that reads "Robert Little". The signature is fluid and cursive.

Dimensions	
Faceplate Width	56-11/16"
Faceplate Height	25-1/8"
View area	615 sq.in

For detailed specifications please see pages 15-19.

Standard Features

- Natural gas or propane
- 39" burner covered with cobalt blue crystals
- Wall mounted on/off switch
- Electronic ignition with SureFire™ switch
- Direct vent
- Limited lifetime warranty

Optional Features

- Contemporary door frame & faceplate in black, brushed stainless steel or sunset bronze
- Black enamel inner reflective panels
- Natural river pebbles
- Ceramic spa stones, crystals in various colors or ceramic log set
- Proflame remote controls
- Wall thermostat
- AstroCap® venting or power vent system
- Variable speed blower
- HeatWave™ power duct kit & HeatRelease™ kit

Regency Horizon® HZ42E

Medium Contemporary Gas Fireplace

Regency Horizon HZ42E shown with sunset bronze faceplate, black enamel inner panels, ceramic spa stones and natural river pebbles.

Dramatic Flame with Perfect Heat

Feature a stunning firescape in rooms with limited space with the Regency Horizon™ HZ42E, a mid-sized contemporary gas fireplace offering a dramatic flame and ample heat. Rev up the atmosphere with cascading cobalt blue crystals, or create a tranquil escape using spa stones. Transform any room into an experience with the Regency Horizon™ HZ42E.

Regency Horizon HZ42E shown with stainless steel faceplate, black enamel inner reflective panels and blue crystals.

Regency Horizon® HZ30E & HZ40E

Small & Medium Contemporary Gas Fireplaces

Regency Horizon HZ30E shown with black inner door frame and black enamel inner panels (clean edge install).

Frameless Style

A smaller profile of the popular Regency Horizon model, the HZ30E and HZ40E feature the same sleek, wide view design set in a seamless frame. With minimal impact on floor space, both models offer modern style options that can be easily integrated into any room, providing efficient heat output for just the right amount of warmth.

Whether updating a small or medium sized apartment, master bedroom or ensuite bathroom, these linear fireplace models are designed to fit well into these spaces and transform their appearance.

Regency Horizon HZ40E shown with black inner door frame and copper crystals.

Regency Horizon® HZ965E & HZ33CE

Large & Medium Contemporary Gas Fireplaces

HZ965E shown with enamel reflective panels and black crystals (clean edge install).

Combining Fire & Art

The conventional firebox has been redefined to include dramatic, contemporary elements taking the design from timeless and traditional to modern and sensational! The Regency Horizon™ HZ965E and HZ33CE gas fireplaces feature an inset design without louvers that allows finish materials to be installed right to the edges for a clean look. An alternative Regency surround package offers a stunning, cost effective solution to finishing.

HZ33CE with black enamel reflective panels and copper crystals (clean edge install).

HZ33CE shown with black enamel reflective panels and black glass crystals (clean edge install).

HZ33CE shown with Modera 33 surround in sunset bronze, black enamel reflective panels and black glass crystals.

HZ33CE shown with Verona 33 surround in stainless steel, black enamel reflective panels and volcanic stones.

Regency Remote and Thermostat Comfort Control

Create optimal comfort with ease and convenience at the touch of a button with a Regency Comfort Control System. Our user friendly programmable controls can be set, adjusted and programmed for your fireplace to come on at the temperature you want when you want it. Regency control systems are available with a variety of features to suit your household home heating needs.

Fan control**	(6 levels)	-	-	✓	-	-
Accent light (On/Off)***		-	-	✓	-	-

* Smart Thermostat - Rather than a thermostat that simply turns your fireplace on and off, the Smart Control function allows you to set your desired room temperature and as the room reaches your personal setting, the flame intensity and heat will gradually decrease – keeping the ambiance of your Regency fire on with less heat output and the option to turn off at any time.

** For models that have a blower.

*** For models that have an optional accent light.

Maximizing Comfort and Efficiency

Regency Fireplaces deliver controllable heat solutions combining the latest in radiant/convection heat technology and innovative features.

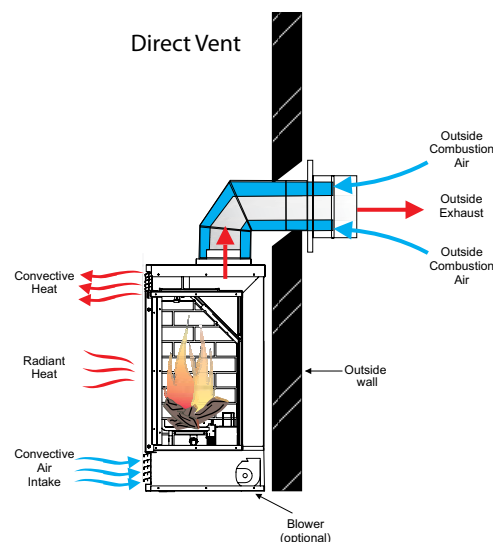

- ✓ Adjustable flame/heat control
- ✓ Heat radiating ceramic glass for maximum radiant heat performance
- ✓ **SureFire Electronic Ignition** switch with battery backup features fuel saving intermittent pilot ignition, conserving energy when not in use.
- ✓ **Power's Out, Heat's On.** Never worry about being cold in a power outage again! All Regency gas fireplaces operate without electricity. Enjoy peace of mind all winter long.

Direct Vent Technology

You can enjoy the convenience of a gas fireplace anywhere in your home with a Regency Direct Vent Fireplace. Regency Direct Vent Fireplaces maintains indoor air quality by drawing fresh combustion air from outside through our specialized venting system into a sealed firebox and sending the used air back outdoors.

Design Versatility

Direct Vent technology allows you to add a fireplace to rooms even if there is no existing chimney. Simply vent your fireplace through an outside wall and finish it with the Regency Patented **AstroCap® Flex Venting System**.
