

The new AURA linear fireplace
offers exclusive
features, unsurpassed style,
and the same proud
craftsmanship
and attention to detail that
makes every Vermont Castings
fireplace iconic.

Perfect in residential and commercial
settings, this is one product that will

take your breath away.

EXPANSIVE *style.* BREATHTAKING VIEW.

Stainless Steel Surround and Contemporary Glass Kit.

MAKE AN UNFORGETTABLE STATEMENT

With an amazing 70-inch viewing area, no other brand manufactures a wider fireplace.¹ Interior options like porcelain panels, contemporary glass kits or driftwood logs create a stunning statement piece for your home or business. The flames produce an elegant burn that compliments the sophisticated styling, and, when the flames are turned off, an included floor illumination kit ensures it loses none of its splendor. The ClearView non-reflective glass showcases the interior perfectly, providing a gorgeous view from any angle. For the finishing touch, choose from a variety of beautiful surrounds.

Interior Styling

- Black or Bronze Porcelain Panels
- Stone and Multiple Glass Kit Colors
- Optional Driftwood Log Set

Surround Styles

- Black Texture
- Iron Age
- Stainless Steel

DESIGNED WITH YOU IN MIND

When it comes to installation, the AURA offers a unique advantage as the longest standard production fireplace using only one, 5"x 8" vent pipe.² This helps maintain a clean look with minimal exterior obstruction to your home or business. **Easy to maintain**, the floor illumination kit uses standard light bulbs found in a typical hardware store, which are easy to change with a simple Phillips screw driver. And, for **flexible installation**, this fireplace comes with an included non-combustible board so drywall can be installed right up to the fireplace opening. It's even convenient to convert from natural gas to propane! With the included LP conversion kit, you don't even have to remove the burner.

The included floor illumination kit makes a stylish statement, even when the fireplace isn't lit.

Iron Age Surround and Contemporary Stone and Glass Kit.

Innovation

Black Texture Surround and optional Driftwood Log Set.

Performance

ULTIMATE FIREPLACE CONTROL

Enjoy more available features with the exclusive **Total Signature Command™ System**. To help you save energy, the Smart Mode® thermostat automatically keeps temperatures at optimal comfort levels. And, you'll enjoy up to 51,000 BTUs of **uninterrupted heating power** in the event of a power outage, thanks to the automatic battery back-up feature. In addition to the wall mounted control, the included touch-screen, hand-held remote makes it easier than ever to control the 3-step flame height, and accent lights.
