Heat your home,
domestic water,
or hot water for
farming needs

Where tradition, craftsmanship and quality come first

Since 1980, DS Stoves has been the premier choice for whole house heating solutions. As a family-owned business in Lancaster, Pennsylvania, we are honored to apply our family values and integrity to every wood, coal furnace and stove we manufacture. Traditional craftsmanship defines each stove, with a promise of high efficiency, low maintenance and quality to last a lifetime. With four divisions: Stove Manufacturing, Retail, Wholesale, Custom and Production Fabrication; we engineer, manufacture and custom-make stoves for sale in our local retail store and across the country. DS Stoves is rich in tradition, with honesty and integrity built in.

For all your Boiler Needs it's DS Stoves!

DS Stoves engineers and fabricates specialty boilers ranging from domestic water and home heating to farm-related needs. For green houses, veal growers, hog barns or milk houses, burning wood or coal, we have the boiler you need. If you can imagine it, we can build it.

#151 Bucket-a-day

- Designed to heat domestic water or smaller homes
- Requires only 30 lbs. of coal per day
- Tank built from 304 stainless steel
- Exterior Shaker handle
- Detachable top and bottom
- Draft regulated with a Samson control
- Requires a minimum 40 gallon storage tank when heating domestic water

#9158 Coal Boiler

- Tank built from 1/4" plate steel
- Top load
- Rugged multi-purpose boiler
- Controlled with Samson regulator

#24 W Wood Water Heater

- Tank built from 304 stainless steel
- Designed to heat domestic water
- Draft regulated manually or with Samson control
- Requires a minimum 40 gallon storage tank

#36 W Wood Water Heater

- Tank built from 304 stainless steel
- Designed to heat domestic water
- Draft regulated manually or with Samson control
- Can be used as it's own holding tank or can use 40 gallon holding tank

#30-2432 Wood Boiler

- Easy to use wood boiler
- Heats all your domestic water
- Low cost, efficient
- Tank built from 1/4" plate steel
- Secondary combustion system

#200 WVB Boiler

- Designed to heat water for veal calves
- Feeds up to 100 calves
- Tank built from 304 stainless steel with lid
- A wood fired boiler that can heat water to 180 degrees in 30 minutes
- Float valve on top optional (1" NPT)
- Drain is 43" from floor optional side 1.5" NPT.
- 46 sq. ft. heating surface
- Exhaust and fittings can be placed on either side
- Firebrick lined firebox

#300 WVB Boiler

- Designed to heat water for veal calves
- Feeds up to 250 calves
- Tank built from 304 stainless steel with lid
- A wood fired boiler that can heat water to 180 degrees in 30 minutes
- Float valve on top optional (1" NPT)
- Drain is 43" from floor optional side 1.5" NPT.
- 64.5 sq. ft. heating surface
- Exhaust and fittings can be placed on either side
- Firebrick lined firebox

#1530 Coal Veal Boiler

- Designed to heat water for veal calves
- Feeds up to 300 calves
- Tank built from 304 stainless steel
- Designed to work with a 500+ gallon tank
- 2-3" clean out parts at bottom of tank
- This unit can also be used for other types of heating
