

Napoleon® Gas Burning

Fireplace Inserts & Gas Logs

From our family to yours

With over 30 years in the hearth industry, we are able to offer you a wide range of products, all proudly carrying the President's Limited Lifetime Warranty. The years of experience, care and quality results in the creation of hearth products that possess a timeless and enduring style, worthy of a place in your home.

As the largest, family owned hearth products and gas grill manufacturer in North America, we invite you to experience the complete family line-up of Napoleon® wood, pellet, gas and electric fireplaces, inserts and stoves. Our products are available for viewing at an authorized Napoleon® dealer nearest you or online at napoleonfireplaces.com.

WHY NAPOLEON®?

Making your life easier...

Napoleon® gas fireplace inserts are designed to provide you absolute comfort and control at the touch of your fingertips. It's that easy. When you install a Napoleon® gas fireplace insert, you can rest assured that you will enjoy a lifetime of instant ambiance with reliable performance year after year.

An investment you can count on...

Your new Napoleon® gas fireplace insert adds value to your home while at the same time giving you uncompromising comfort and a reliable heating source. Nothing to lose and everything to gain.

Create your personal design statement...

Surround yourself with a home environment that makes you feel good, relaxed and proud to reflect your decorating style. Thousands of designer options are available to create the exact statement you have been looking for.

Trim selection...

Napoleon® offers a complete selection of cast iron surrounds as well as traditional painted and plated trim packages to complete and enhance your fireplace insert installation.

Highest efficiencies, maximum comfort...

Years of research, design and testing have enhanced optimum performance allowing Napoleon® products to achieve some of the highest heater rating efficiencies on the market. Napoleon® continuously surpasses industry standards not only in appearance but in efficiency and performance.

Beautiful fires, best flame in the industry...

With advanced burner technology and innovative design, Napoleon's flame and exclusive PHAZER® log sets are so realistic it's hard to tell the difference from a real wood burning fire.

Authorized dealer support network...

With over 3,000 reputable authorized dealers across North America and Europe, Napoleon® provides professional and consistent training and technical support to ensure your fireplace insert is installed by a certified, reputable installation technician.

Outstanding Reliable Warranty...

Each and every Napoleon® gas fireplace insert is designed and manufactured to strict quality testing standards and backed by the President's Limited Lifetime Warranty, guaranteed to give you the solid performance you deserve. (Registered under the world recognized ISO 9001-2008)

Napoleon's Advanced Insert Technology

Direct Vent

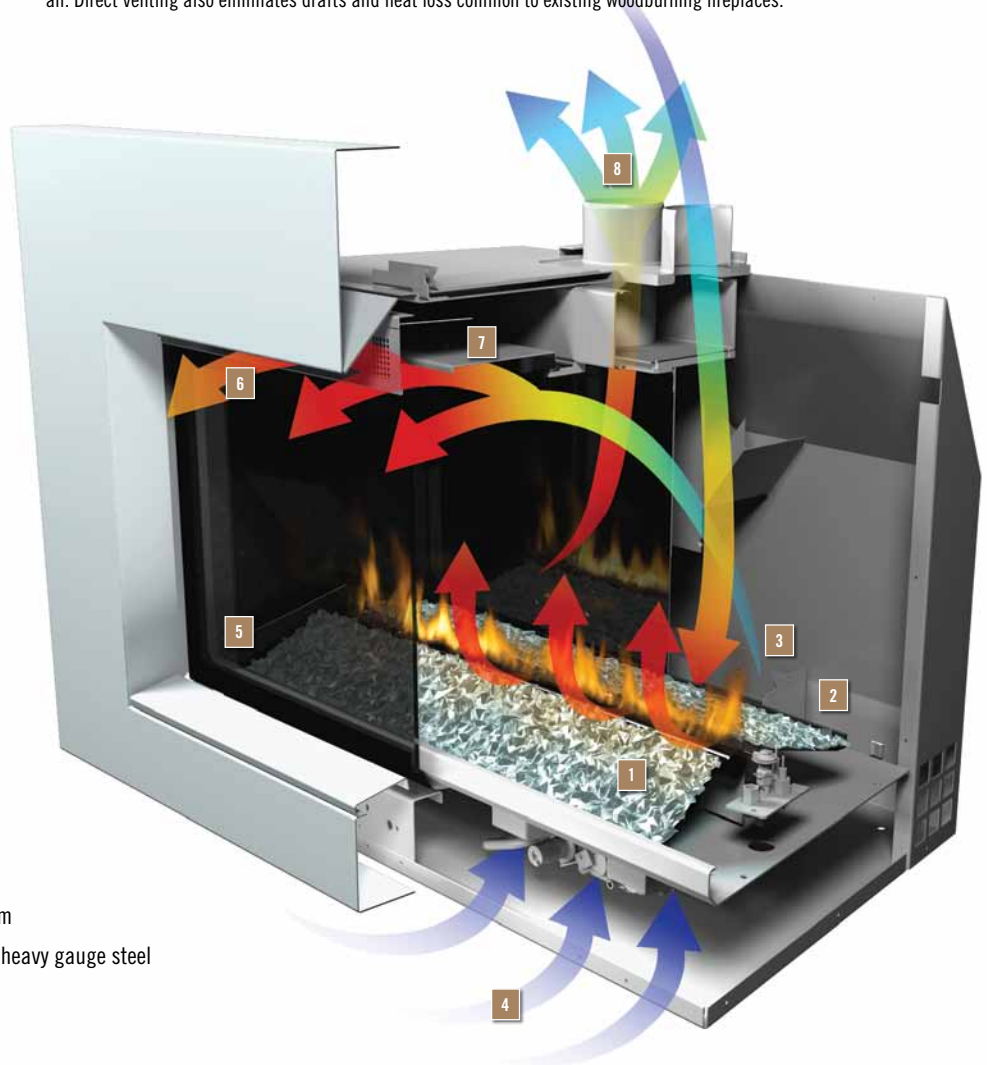

Direct vent technology draws outside air for combustion into the firebox chamber then exhausts through a separate vent. Both vents are installed into your existing chimney.

Napoleon's direct vent gas fireplace insert design employs a sealed combustion and vent system. These and other innovations allow Napoleon's inserts to achieve some of the highest efficiencies in the industry today. The direct vent draws its combustion air from outside while venting to the same outside atmosphere - thereby not consuming warm house air. Direct venting also eliminates drafts and heat loss common to existing woodburning fireplaces.

Direct Vent System

- 1 Realistic PHAZER® log set or CRYSTALINE™ ember bed
- 2 Double steel wall construction on five sides for optimum heat retention and efficiency
- 3 Variable speed fan provides maximum comfort and efficiency to help circulate room air
- 4 Cool room air drawn in
- 5 High heat ceramic glass for ultimate safety and heat transfer
- 6 Heated room air out through an efficient blower system
- 7 Heat exchanger for maximum heat output featuring heavy gauge steel
- 8 Gas flue outlet exhausts combusted air
- 9 Fresh air intake - pictured above
- 10 Exhausted combustion air - pictured above

What is Zone Heating?

The Benefits of Zone Heating

Why is a gas fireplace insert more effective than using the furnace alone?

When you are active and moving around the house your body doesn't feel the need for heat as it does when relaxing in the family room. Zone Heating means you are heating the room that you use the most with an alternate heat source, like a Napoleon® gas fireplace insert. Zone Heating is the obvious solution for those families concerned about rising fuel costs.

NAPOLEON
ZONE Heating!

Outstanding Features of Napoleon's Advanced Technology

Advanced Burner Technology

Napoleon's sophisticated burner system offers superior flame technology. Strategically placed burner ports create the most realistic flames in the industry.

Finely Tuned Precision Valves

Surrounded with a protective cast aluminum jacket, the precision valves allow for ultimate reliability and 100% SAFE GUARD™ gas control system.

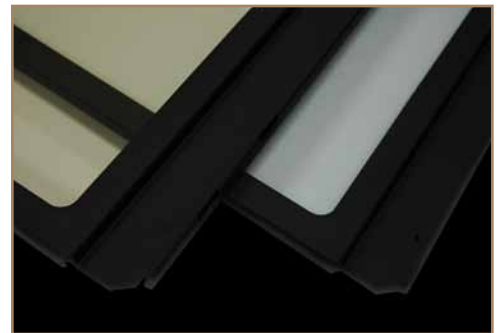

True Masonry Details

Napoleon's ceramic brick panels with true masonry texture and mortar details, help transfer additional heat, radiating out from the firebox.

Outstanding Craftsmanship

Fine details are designed in every aspect of Napoleon® gas fireplace inserts... individually handcrafted with pride of excellence.

Superior Heat Resistant Glass

Ceramic glass is made to withstand high temperatures and thermoshock, allowing maximum radiant heat performance & safety.

WHISPER QUIET™ Heat Circulating Blower System

The extreme heat resistant "H" class bearings featured in Napoleon's superior heat circulating blower, creates a lasting "whole home" comfort with adjustable high & low speeds.

Convenient Remote Controls

Napoleon's remotes with digital read out and thermostatic control give you the comfort level you need at the touch of a button. The F50 remote is available in three stylish designer colours - red, grey and black.

FIBERGLOW™ Vented Gas Log Sets

Advanced FIBERGLOW™ Infrared Technology Radiates Heat Back Into the Room from the PHAZERAMIC™ Burner

- A** Air flows towards the air intake opening.
- B** Natural gas or propane circulates into a precisely calibrated SIT safety valve.
- C** Air and fuel mix within the venturi tube.
- D** The perfect blend of fuel and air mixture travels through the sophisticated burner ports, strategically placed to begin the process of creating the most realistic flames in the industry.
- E** Infrared heat from the glowing logs radiates directly back into the room from the exclusive PHAZERAMIC™ burner and ember bed which provides up to 65,000 BTU's.
- F** Infrared heat technology and curved rear log design, directs heat back into the room.
- G** Controls are hidden from view but easy to access. The added feature of an on/off switch is conveniently located at the front side.
- H** Thermocouple provides 100% SAFEGUARD™ system, quickly automatically shutting off the gas supply for your peace of mind.
- I** Thermopile milivolt system provides full operation without the need for electricity.
- J** Ignition system is easy with a piezo ignitor, digital remote control or milivolt wall thermostat.

No Comparison - Replace Your Drafty, Inefficient Fireplace with a Napoleon® Gas Insert
